Sinopse

For one lucky couple, it's not just the culmination of the most satanic acts and performances, but a longevity of memories that would last a lifetime. On Halloween night on the outskirts of Atlanta, Georgia, Harold decides to take his wife, Jen, to the worlds scariest circus in the United States for their anniversary. So, what Jen believed would be a romantic evening out on the town, only turns into the scariest night of their lives inside of an arena with a clown, so they thought. When Jen makes a life-changing mistake at the conclusion of the main event, it would follow them home a year later when they invite their friends over for a party out by the lake. Filled with gory visions, haunting surprises, and deadly choices, only one person in the end will understand what the true meaning of, "Spike Smiley" means.
