Sinopse

Dead dogs, foetus burgers and Nazi clown-chefs; something smells fishy in London; and for once it's not Glover's pants. Detective Danny Glover, Scarborough Police's premier dog-napping-ring buster and general fat bastard, arrives in London to help the clinically psychotic Detective Sonny Boy with a little problem: Who is butchering London's dogs? The answer seems obvious at first, it must be Burger Priest; the Pope's Neo-Nazi clown-chef empire: home of the 'Amen with Cheese', a rancid burger made of fingernails, turds and aborted foetii; just don't ask what goes into their 'Nunion Rings'! Detectives Glover and Sonny Boy engage on a covert mission to uncover Burger Priest's dark secret; but even they are unprepared for the true horror and depth of the fast food franchise's depravity. Assisted by Feety, a heroin-addicted foetus, and Ellen Mellon, a New York reporter who also happens to be an animated ventriloquist's doll, they must reveal the Pope's evil plan and shut down Burger Priest...
